About Us

We create the perfect conditions. We start at the source and work directly with our farms, get to know the farmers personally, harvest the best crop (down to the very last blueberry) at peak ripeness, and freeze everything right on the farm to lock in nourishment and taste at just the right time.

We believe that good food can actually fix things, and we're passionate about how we bring it to life. Start with exceptional ingredients. Combine them all into something phenomenal. Eat one more dose of fruits + veggies without even trying. It's how we take care of food so food can take care of you. Delicious is in the details.
